Subject: Revolutionizing 3D Design Collaboration: A Message to Designers and Gaming Studios from 3DAiLY's CEO

Dear 3DAiLY Designers, Gaming Studios, Game Developers, and 3D Industry Visionaries,

In our commitment to reshape the landscape of 3D design collaboration, we recognize the challenges faced by both designers and gaming studios/game developers. Here's how 3DAiLY bridges the gap, offering an unprecedented solution that benefits both sides of this dynamic equation.

Challenges Faced by Designers:

- **Limited Monetization Opportunities:**
  - Despite their incredible talent, many 3D designers struggle to monetize their skills effectively in the current ecosystem.

- **Skill Set Development Challenges:**
  - Developing a robust skill set can be challenging due to the limited availability of professional education options and the complex, expensive nature of 3D design software.

- **Market Accessibility:**
  - Accessing the market and reaching potential clients can be a time-consuming and inefficient process.

Our Commitment to Designers:

At 3DAiLY, we are committed to empowering designers on multiple fronts:

- **Accessible Ecosystem:**

- • We've created a powerful ecosystem and platform where designers can effortlessly connect with the market, monetizing their talents on a larger scale.

- • **Skill Enhancement Support:**
- • For those lacking specific skills, we offer support and resources to empower designers for a diverse array of job requirements.

- • **Monetization Opportunities:**
- • Our platform facilitates swift entry into the market, allowing designers to monetize their assets seamlessly and efficiently.

Challenges Faced by Gaming Studios:

- • **Difficulty in Acquiring Skilled 3D Designers:**
- • The broken ecosystem makes it challenging for gaming studios to connect with skilled 3D designers, resulting in high acquisition costs.

- • **Finding Production-Ready 3D Models:**
- • Locating game-ready 3D models proves to be an arduous task, hindering the development process.

- • **Ensuring Cohesiveness to Game Environment:**
- • 3D models must seamlessly integrate into the unique environment of each game, posing a significant challenge.

Our Solution - A Unified Bridge:

Our platform serves as a transformative bridge between 3D designers and gaming developers, ensuring that the needs of both parties are met seamlessly:

- • **Content/Asset Creation for Studios:**

- Access premium assets, characters, and more at the lowest cost and fastest turnaround time to expedite game development.

- **Revenue Enhancement for Studios:**
  - Integrate our platform as an SDK, enabling end users to personalize characters within your game, unlocking new revenue streams.

Join us at 3DAiLY as we redefine collaboration in the 3D design industry, fostering a future where creativity thrives, and the contributions of both designers and gaming studios are rightfully celebrated.

Best Regards,

Harsha P. Deka
CEO, 3DAiLY
